Ranger Lifting Rigging Safety is a leading specialist in lifting, rigging and height-safety solutions, supporting customers across construction, manufacturing, transport, infrastructure and utilities. We are seeking a hands-on Technical Services Fitter to join our Inspection & Technical Services Workshop team.

About the role

Reporting to the Technical Services Manager, you will work across installation, workshop production and technical inspections of lifting, rigging and height-safety equipment. This is a varied, practical role suited to a trade-qualified fitter who enjoys both workshop work and customer sites.

Key responsibilities

- Perform in-house and on-site inspections of lifting, rigging and height-safety equipment
- Carry out installation of manufactured systems and associated components on customer sites
- Fit and assemble fabricated metal parts into products, machines and equipment
- Set up and operate production machines (including pressing and cutting) as required
- Read and interpret drawings and specifications to determine materials, methods and sequence of work
- Check components and assemblies for accuracy, clearance and fit using precision measuring instruments
- Conduct testing in line with NATA/LEEA and relevant standards, maintaining accurate registers and records
- Assist with booking, receipting and scheduling of inspection and workshop jobs
- Provide technical support and product advice to Ranger customers
- Work safely at all times and comply with company policies, procedures and WHS requirements

About you

- Trade qualification – Fitter / Mechanical / related trade (Certificate III or IV)
- Experience in lifting, rigging, height-safety or a closely related mechanical environment
- Strong practical fitting, assembly and fault-finding skills
- Ability to read and interpret drawings and technical specifications
- Comfortable working both in the workshop and on customer sites
- Sound computer skills for basic data entry and reporting
- Current NSW driver's licence
- Strong attention to detail, with a "can-do" attitude and commitment to safety and quality
- Excellent communication skills and a customer-focused approach

What we offer

- Full-time, stable position with a growing specialist business
- Variety of work across installation, production and inspection
- Training and development opportunities, including industry certifications
- Supportive team environment with a strong safety and quality culture
