Brisbane QLD (Hybrid)

Building Services Engineering (Engineering)

Full time

Circa $120-150k + super on exp

Posted 5d ago

Our client is a well-established Tier 2 multidisciplinary engineering consultancy with a busy and growing Vertical Transportation (VT) team in Brisbane.

If you are currently working as a Lift Engineer, Elevator Engineer or Vertical Transportation Engineer, this role offers the opportunity to work on major building projects across Queensland, including hospitals, large-scale infrastructure and Olympic-related developments.

Why This Role

• Join a busy and established VT team with a strong project pipeline

• Work on major hospitals, Olympic-related infrastructure and landmark developments

• Be part of a growing multidisciplinary engineering consultancy

• Offices across Brisbane and the Gold Coast, with Sunshine Coast expansion planned

• Strong salary package and long-term career opportunity
This is a fantastic opportunity to join a highly regarded consultancy delivering high-quality building projects across Southeast Queensland.

The Role

Working as part of a busy local VT team, you will be involved in:

• Lift and escalator traffic analysis and concept design

• Preparing VT design briefs and specifications

• Coordinating with architects, developers and project teams

• Supporting projects from early concept through tender and delivery

• Documentation and layouts using AutoCAD and BIM tools

Projects include major hospitals, large-scale infrastructure, commercial towers, residential developments and Olympic-related work.

The Ideal Candidate

This role would suit someone with vertical transportation or lift engineering experience, either from a consulting environment or from the lift manufacturing / OEM side of the industry.

You may have experience in:

• Vertical transportation consulting within a building services firm

• Lift or escalator engineering with manufacturers such as KONE, Otis, Schindler or TK Elevator

• Knowledge of NCC, AS1735 and lift design standards

• Working with architects, developers and multidisciplinary engineering teams

• AutoCAD experience (Revit/BIM exposure beneficial)

This is an excellent opportunity for a Lift Engineer / VT Engineer looking to work on landmark

projects in a collaborative Tier 2 consultancy environment.

This opportunity may also suit Mechanical Engineers, Building Services Engineers or Lift Design Engineers who have experience working with vertical transportation systems including lifts, elevators or escalators.

Search Keywords:
Lift Engineer, Elevator Engineer, Vertical Transportation Engineer, Escalator Engineer and Vertical Transport opportunities within building services consulting. Experience with lift design, lift traffic analysis, AS1735 standards, NCC / BCA compliance, AutoCAD and BIM or Revit modelling within vertical transport engineering or lift manufacturer environments such as KONE, Otis, Schindler or TK Elevator will be highly regarded.

HOW TO APPLY

- Click the Apply button
- Call (or text) Mahlah Ludekens on **0403 951 110**
- Email directly **Mahlah@recruitr.com.au**

In the first instance, please send through a copy of your CV or a short introduction about yourself outlining your experience and what you're currently looking for.

If your CV isn't fully up to date, don't worry — just send what you have or a quick introduction and we can take it from there.

ABOUT ME

#SCR-mahlah-ludekens

I specialise exclusively in Building Services recruitment and have been working in this sector for over 24 years, building long-standing relationships with consultancies, contractors and developers across the industry.

I've spent over two decades recruiting exclusively within Building Services, so I understand the technical roles, the key firms in the market, and what makes a move worthwhile for people in this industry.

Over that time I've built a strong network across Australia's building services industry, including many consultancies and contractors you'll know — and quite a few you may not.

My role is simple: connecting the right people with the right opportunities.
If this particular role isn't quite what you're looking for, feel free to get in touch anyway. I'm always happy to have a confidential conversation about the market, your career direction, and opportunities that may not yet be advertised.

All conversations are strictly confidential, and I'm always happy to provide an honest view of the market if you're simply curious about what opportunities might exist.
