We're looking for experienced Lift Installers to join us as direct employees on EBA rates. You'll be involved end-to-end across new installations and modernisations — the kind of work that keeps you sharp and lets you take real ownership.

Your day-to-day will include:

- Mechanical installation — rails, brackets, doors/entrances, car & counterweight components
- Electrical installation — containment, wiring, terminations (where applicable)
- Machine-room and MRL fit-out support
- Working from drawings, lift layouts, and manufacturer installation manuals
- Site coordination with builders and other trades
- QA checks, testing support, and completion documentation
- Maintaining a high safety standard on active construction sites

We hire character as much as competency. We want people who take pride in their craft, communicate straight, and want to grow alongside the business. Here's the profile:

- Demonstrated lift installation experience (construction environment)
- Strong mechanical aptitude — electrical experience is a real advantage
- Ability to read drawings and follow installation specifications precisely
- High attention to detail and a genuine safety-first mindset
- Construction White Card (essential) + Driver's licence (essential)
- Reliable, self-motivated, and easy to work with — team culture matters here

- Construction White Card (essential) + Driver's licence (essential)
- Reliable, self-motivated, and easy to work with — team culture matters here

Tickets (Highly Regarded):

- Working at Heights
- Electrical trade qualification + current QLD electrical licence
- Rigging
- CPR/LVR

If this sounds like the role you've been waiting for, we'd love to hear from you. Apply via SEEK or send your resume and a brief cover note directly. Tell us about your experience and — more importantly — why you'd be a great fit for a team built around quality and culture.
